Clear Definition Of Japan's Position In Pacific Urged

Some of Japanese Peers Say Japan's Rights In China, Siberia and South Seas Should Not Be Discussed At Conference in Washington.

Tokio, July 21.—The evening newspapers to-day report continued activity on the part of certain peers in connection with the disarmament and Far Eastern conference. The newspapers describe their attitude as that of believing Japan's acquired rights in China, in Siberia and the South Seas should not be included in the agenda of the conference, and also that Japan's position in the Pacific should be clearly defined.

The Kensei-Kai, or Opposition party, is considering the question of sending a private mission to Washington simultaneously with the official delegation to watch events at the conference on behalf of the party.

Hon. John Hart to Cut B. C. Income Tax to Free Federal Payments

Business men representing all lines of industrial interest and commercial enterprise waited upon Hon. John Hart, Minister of Finance, to formulate requests in connection with the collection of provincial income tax.

There were represented the B. C. Manufacturers' Association, the Canadian Manufacturers' Association, the Employers' Association of British Columbia, the Timber Industries Council of British Columbia, and various organizations of lumbermen, loggers, shingle manufacturers, cannery, shipwreckers, pulp and paper makers, mining industries, metal trade, warehousemen, master builders and contractors and retail merchants, including E. W. Hamber, J. B. Thomson, F. E. Burke, J. H. Lawson, M. A. Grainger, H. W. Brodie, H. E. Burbridge, J. M. Savage and Woodward.

WERNER HORN BACK TO GERMANY

Convict Insane; Tried to Dynamite C.P.R. Bridge

Ottawa, July 22.—(Canadian Press)—The Government has ordered the release from penitentiary of Werner Horn, the dynamiter who tried to blow up the international bridge on the Canadian Pacific Railway between Vancouver, Maine, and McAdam, N. B., during the war and who on October 21, 1915, was sentenced to ten years on a charge of endangering life and property by damaging a railway bridge.

Some time ago the Dorchester Penitentiary surgeons announced that the dynamiter was insane and it was on this ground that his release was granted. He must return to his own country, Germany, immediately on his release and the warden has been notified that Horn must not be released from the penitentiary until arrangements are completed for his immediate deportation. Those arrangements are expected to be completed within a very short time now.

FORTHCOMING PICNICS

- July 23—Gaelic Society, at Mt. Douglas.
- July 23—Gyro Club, at Weir Farm, William Head.

- July 29—Gordon's Picnic, at Deep Cove.

ICE FOR POOR TORONTONIANS

Toronto, July 22.—A local ice company announces that it plans to establish stations in various parts of the city where the poor can go and buy a ten-cent piece of ice and carry it home, much the same as they do now and buy a brick of ice cream.

Farmers to Pay \$800,000 To B. C. Unemployed

Word has just been received from Winnipeg by the Hon. J. W. de B. Farris, Provincial Minister of Labor, announcing concessions granted to unemployed men in British Columbia who wish to go to the prairie provinces for harvest work.

The transportation companies have agreed to take men from Vancouver to Calgary or Edmonton for \$10, or from Victoria to the same points for \$11.

For points east of Calgary or Edmonton there will be a charge of one-half cent per mile, with a minimum charge of 50c. This rate is applicable to all points west of Prince Albert, Saskatoon or Regina, but does not include those points, covering all of the Province of Alberta and nearly half of Saskatchewan.

Labor Department Gets Cut. This concession follows upon efforts which the Provincial Government has been making for some time past, to secure an alleviation of the unemployment problem in the Province.

The Government, after carefully considering the position locally, came to the conclusion that there was not sufficient employment in sight to

GREEKS CUT OFF RETREAT OF TURKS

Interfere With Movement Toward Angora

People in Smyrna Celebrating the Victory

Smyrna, July 22.—An important surrounding movement by the Greek right wing is reported here to have cut the retreat of the Turkish Nationalists toward Angora from Eski-Shehr, the railway junction point captured by the Greeks in their sweeping offensive movement Tuesday evening. This movement is being carried to the south and east of Eski-Shehr.

Mustapha Kemal Pasha, the Turkish Nationalist leader, is said in Greek quarters to have escaped the surrounding movement and to be fleeing toward Angora.

Here in Smyrna the population is celebrating the Greek victory.

Yok Officers. London, July 22.—The Greeks, in taking Eski-Shehr Tuesday evening, captured Klazim Kara Bekir, the Turkish Nationalist commander in the city, and all his generals and other officers, says the Central News Athens correspondent to-day, quoting dispatches from the fighting front.

The Greek newspapers of all shades of opinion are demanding that the Greeks march on Constantinople, the correspondent asserts.

BANK STATEMENT SHOWS INCREASES

Assets and Liabilities Grew in June in Canada

Ottawa, July 22.—(Canadian Press)—The assets of Canadian banks show an increase of \$1,875,538,781, as compared with the May total of \$2,871,816,298. Total liabilities in June as compared with May showed an increase of approximately \$9,000,000, as shown by the June bank statement issued to-day by the Department of Finance.

Total assets of Canadian banks at the end of June were \$2,875,538,781, as compared with the May total of \$2,871,816,298. Total liabilities in June were \$2,894,547,901, as against \$2,884,954,982 in May.

DROWNED IN RIVER

Winnipeg, July 22.—Patrick Kelly, age 45, a Canadian working on the new Maryland Street bridge, was drowned this morning when he fell from a platform into the Assiniboia River.

LINKING GROUPS OF EX-SERVICE MEN

Amalgamation Discussed in Ottawa by Leaders

Ottawa, July 22.—The problem of the amalgamation of ex-service men's organizations in Canada occupied the attention of an impromptu conference in Ottawa this morning between J. Fred Marsh, Dominion secretary-treasurer of the Grand Army of the Republic Veterans and Grant McNeill, Dominion secretary-treasurer of the Great War Veterans' Association of Canada; W. E. Turley, provincial secretary for Ontario of the Great War Veterans' Association; David Loughnan, editor of The Veteran, and Dominion Command G. W. V. A. officials.

Upon the point that the G. W. V. A. was seeking amalgamation for direct partisan political action, Mr. Marsh assured G. W. V. A. officials that such was not the case and any conference between representatives of soldier organizations could be held with the assurance that this matter would not be made a predominant issue.

Conferences. Officials of the G. W. V. A. pointed out that while they were willing and anxious for a free discussion of the question of amalgamation no official action could be taken till after the G. W. V. A. convention, this to-day by it was announced that a series of preliminary conferences should be held immediately with a view to clarifying the issues of amalgamation.

Representatives of the Army and Navy Veterans in Canada will be asked to participate in these conferences. The final decision in the matter will be left open to the membership at large of the different organizations involved.

TRY TO PURIFY KU-KLUX-KLAN

Fort Worth, Tex., July 22.—Action to purify the Ku-Klux-Klan in Texas and to combat other forces that attempt to shield their crimes under the cloak of the Klan was announced today by William Joseph Simmons of Atlanta, Ga., Imperial Wizard of the Knights of Ku-Klux-Klan, in a message to a local newspaper.

FINNS ARE SAID TO FEAR RUSSIANS ARE MOBILIZING

Stockholm, July 22.—While the Russian Legion in Helsinki and other Russian Legion units in the Baltic region in Russia, a Finnish report to-day declared that Government had proof that peasants in Karelen and in other districts had been mobilized

CHICAGOAN OVER NINETY DIVORCES HIS THIRD WIFE

Chicago, July 22.—Ambrose J. Rose, ninety-one years old, granted a decree of divorce from his wife, asserted to-day that "women were getting worse with every generation."

"My first wife," he said, "was pretty good; my second was just mediocre and the third no good at all." He is through with them all, according to his declaration.

Cities Meet to Prepare Finance Fight; Tackle Street Railway Problem

The Union of British Columbia Municipalities, representing almost every municipality in the Province, will meet in Port Alberni August 30 to prepare municipal finance plans, which later will be laid before the Government and the Legislature at its Fall session.

The Union also will deal with the serious situation which has just developed, following the failure of the tentative agreement between British Columbia cities and the B. C. Electric Railway Company. It is expected that the Union will take action to prevent the B. C. Electric Company from securing a Dominion charter—a plan which the company abandoned early this year but which the Union has learned, it will press again in the Fall as soon as possible.

These important announcements were made to The Times to-day by F. A. McDiarmid, Parliamentary Agent of the Union of B. C. Municipalities, who arrived in Victoria this morning after his recent trip to Britain.

The Union will hold sessions on August 30 and 31, and on September 1 and 2, Mr. McDiarmid stated.

GOLD DISCOVERED IN ONTARIO

Rich Find Made North of Cobalt

Bourkes Siding, Ont., July 22.—One of the most spectacular discoveries of gold in Northern Ontario has just been made in the township of Benoit. The find lies on a farm owned by A. O. Anderson. Samples of the ore were brought out yesterday, the gold being shot through in leaves very similar to the manner in which the silver occurs in the high grade ore at Cobalt. In addition to this heavy gold there are also large amounts of pure gold which are as big around as a 25-cent piece, resembling the rich samples in Cobalt with the exception that the new discovery is yellow instead of white.

FOUND GRAVE OF SOLDIER SON

Canadian Parents Found Other Graves in France

Toronto, July 22.—Colonel MacMillan, of the Salvation Army headquarters, who recently returned from a tour of inspection of the army's work on the battlefields of France, tells this story: "A blacksmith and his wife who had journeyed from this country to France to visit their only son had been disappointed and were in England on their way back when they met a man who had served with their son in the same unit."

Near Chateau. "The comrade in arms of their son told them that their son had been buried in the dead of night and that it had been near a fountain in front of a chateau. Equipped with one of the army's war graves maps, set out once more, they located the chateau with the fountain and there they found the spot where it had once stood.

"Only one inhabitant of the place remembered where the fountain had formerly stood. They found the grave, and besides that the common grave of a number of heroes who had died during the chateau against a German onslaught. Crosses mark the place where these men sleep, and the newly-discovered cemetery is known as the 'Cemetery of the Fountain.'"

BANK ROBBERS HUNTED BY POLICE IN ONTARIO

Windsor, Ont., July 22.—Although the entire country has been combed thoroughly by half a hundred police officers and many clues have been followed down, not the slightest trace has been found of the six men who at noon yesterday held up the Peitl Cote branch of the Merchants Bank of Canada and robbed it of between \$15,000 and \$18,000.

NEWFOUNDLAND RAILWAY SCHEME

St. Johns, Nfld., July 22.—After three days of debate the legislature yesterday passed a measure providing for operation of the colonial railway system for one year ending next June by the Reid Newfoundland Company. The colony guarantees losses in operation up to \$1,500,000 under the provisions of the Act, but the company must meet losses above that figure. The bill was passed by a vote of 18 to 14.

MONEY RETURNED TO OTTAWA

Ottawa, July 22.—The Department of Marine and Fisheries has received a cheque for \$20, conscience money. The writer, who signed himself "An Officer," states that he charged for more than time that he actually put in. The envelope bears the postmark "Tracadie, N. B., July 2."

Church Counsel Expects Privy Council Victory

The Imperial Privy Council probably will deliver its judgment on the suit between the Catholic Bishop of Vancouver Island and the city of Victoria, which involves the right of British Columbia cities to tax church lands, within the next ten days, F. A. McDiarmid stated to-day when he arrived here from London, where he represented the Bishop before the Privy Council.

If judgment is delayed longer than the end of the month, Mr. McDiarmid said, it probably will be reserved until October, when the Privy Council will meet again to hear its August and September long vacation. It is expected, however, that decision on the case will be announced immediately. While naturally reticent on the subject, Mr. McDiarmid declared that he was confident that the judgment of the

MOTOR CARS DRIVEN AGAINST STANDING RAILWAY TRAINS

Ottawa, July 22.—The case of an automobile running into a train was brought to the attention of the Railway Commission recently, and as a result an investigation was held to determine whether such accidents were at all common.

It was found that during nine months past two automobile drivers had run their cars into trains which were at a standstill at crossings, while three others had taken bumps against cars in motion.

FORCE IN SILESIA FRENCH PURPOSE

But Lloyd George Has Not Agreed

Supreme Council Meeting Not Announced Yet

Paris, July 22.—The Anglo-French controversy which has arisen over the demand by France that Allied reinforcements be sent to Upper Silesia is still regarded by the French press in the light of a crisis.

While the British reply to Premier Briand's proposal that the Supreme Council meet July 28 to discuss the matter had not been received, press dispatches from London to the effect that Mr. Lloyd George refused to alter his position against sending reinforcements were prominently displayed in the Paris newspapers this morning.

Cabinet Meeting. It is understood that Premier Briand, after a meeting of his Ministers to-day, will refer to President Millerand his position and insist upon the necessity of sending additional troops.

Berlin's reply to the French protest against German activities in the Silesian area is expected in Paris to-day, but the Petit Parisien believes it will have little effect on the situation.

This newspaper also expresses surprise that the British Government places an entirely different interpretation upon the communication from the Allied High Commission at Oppeln and urges publication of the text as proof that the French reading is correct. This communication, in which the British High Commission occurred, is reported to stress the need of more troops.

Two Policies. In The Echo de Paris, "Pertinax," its political writer, asserts that behind the divergent views of London and Paris appear two distinctly different policies regarding Germany.

"England," he says, "placing faith in the given word of Germany and in the series of friendly accords, expects the Treaty of Versailles to be executed normally and looks for the pacific development of her adversary of yesterday."

France, however, does not expect the fulfillment of the treaty except by force. She will be content only when she knows that Germany can never surrender.

AUTO FATALITY RATES IN STATES

New York Lower Than Other Large Cities

New York, July 22.—New York has the lowest automobile fatality rate per capita of any large city in the United States, according to figures made public to-day by Health Commissioner Cooperland in answer to a recent newspaper editorial describing it as "the city of dreadful streets."

The figures for 1920 show Los Angeles had the highest rate, 291 per million of population. Figures for other cities were: Pittsburgh, 322; Denver, 225; Providence, R. I., 215; St. Louis, 216; Boston, 202; Portland, Oregon, 178; Washington, 163; and New York, 166.

SCHOONER MASTER MUST EXPLAIN

Cargo Disappeared; Craft Entered Atlantic City

Philadelphia, July 22.—The master of the small British schooner Pocumoke, which came into Atlantic City Wednesday in distress and without her cargo of 1,000 cases of intoxicating liquors, will have some explaining to do to the British authorities in this jurisdiction, according to Charles R. Kurtz, Surveyor of the port.

Mr. Kurtz said the schooner came into Atlantic City under distress signals. Captain J. A. Roy, according to Mr. Kurtz, said the craft had left Nassau, Bahamas Islands, with 1,000 cases of liquor for Quebec. Off the Delaware Capes he said she encountered a storm which caused him to transfer part of the cargo to a schooner and to throw the remainder overboard because the vessel sprang a leak. According to Kurtz, Captain Roy said his crew was discharged and transferred to another vessel at sea, which is said to be a violation of maritime law.

"While we can not do anything about what he did with his cargo outside the three-mile limit, the British Government can certainly make him give a more definite explanation of the actions of the ship at sea," said Mr. Kurtz.

VETERANS WILL WELCOME BYNG

Ottawa, July 22.—That the Dominion command of the G. W. V. A. will extend a welcome to Lord Byng, Governor-General of Canada, on behalf of the former service men of the Canadian corps is now assured, although the form of the welcome has not yet been decided. It is likely that the welcome will take place when General Byng arrives in Ottawa, and not when he lands at Quebec.

ASK CLEMENCY FOR MEN SENTENCED TO BE HANGED

Ottawa, July 22.—The returned soldiers are seeking reprieves for former comrades William McFadden, under sentence of death for Toronto for participation in the killing there of Walter Sabine, a druggist, and Roy Holtrum, also sentenced to die at the same time for participation in the same crime.

Toronto, July 22.—Eight thousand names have been attached to a petition asking for clemency for Roy Holtrum, the Hamilton man who was executed in Toronto on August 3 for the murder of Walter Sabine, a druggist.

Dominion Plan for Two Irish Sections Said to Be Offer

Safeguards For England's Naval and Military Position Reported to Be Included In Government's New Proposals For Ireland.

London, July 22.—It is predicted in some quarters here that publication of the proposals the Government made to De Valera will reveal that the Prime Minister has offered each section of Ireland Dominion Home Rule, with reservations to safeguard England's naval and military position.

London, July 22.—The British Government's proposals to Eamon de Valera, the Irish "republican" leader, for peace in Ireland probably will not be made public until a definite reply to the Government's terms has been received from the Sinn Fein leaders in Dublin, it was stated in official circles here this afternoon.

It is expected Premier Lloyd George will be able to make a comprehensive statement concerning the peace terms in the House of Commons next week, it was added.

PAPERS STATE ULSTER VIEWS

Say Northern Irish Have Never Been Misled

Belfast, July 22.—A copy of the Irish peace terms headed by Premier Lloyd George yesterday to Eamon de Valera, the Sinn Fein leader, was placed before and considered by the Ulster Cabinet to-day. No opinion on the terms was requested by the British Ministry, it is stated, and none has been given.

London, July 22.—Newspapers here this morning take an exceedingly cheerful view of the entire Irish situation, although the Premier's statement to the Sinn Fein leader still remains a matter of speculation and will not be cleared up until the official text is made public.

Some political writers gleam hope from the fact that De Valera has returned to Dublin to discuss the terms with his Sinn Fein supporters. These writers claim this shows he considers the offer of the Government worthy of consideration.

\$4,500,000,000 BRITISH TAX TOTAL

Supplementary Estimates Voted by Commons

London, July 22.—(Canadian Associated Press)—Supplementary estimates to the amount of £2,900,000,000 brought down by Sir Robert Horne, Chancellor of the Exchequer, have been granted by the House of Commons. Of this total the Chancellor stated that £6,000,000 was required to liquidate the Government's liabilities to the railway companies arising from the agreement under which the state took over the control of the roads during the war. With this payment included the Government subsidy to the railways for the year would total £75,900,000.

For Farmers. The supplementary estimates also provide for a subsidy of nearly £20,000,000 to the farmers, for though the Government repealed the war-time agricultural act, it agreed to pay certain bonuses this year on the corn production.

Another item provides £1,500,000 to take care of the increased cost of unemployment insurance arising from the exceptional industrial situation.

Taxation. Altogether the British taxpayers this year will be required to contribute over £300,000,000 to the national account, as compared with a pre-war contribution of £207,000,000. Of this year's total £20,000,000 is required to look after the war debt, £138,000,000 for pensions and £162,000,000 for other obligations to men who fought in the great war.

Famine Now Is Taking Terrible Toll in Russia

New York, July 22.—The official Bolshevik newspaper Pravda, of Moscow, under date of June 25, telling of the terrible sufferings of the Russian people, says that "as a result of the drought and the crop failure famine is raging among a population numbering about 25,000,000."

This announcement, given out by A. J. Sack, director of the Russian Information Bureau in the United States, who represents Russian Anti-Bolshevik forces in this country, confirms recent cable dispatches which have described the widespread famine conditions prevailing in Russia.

The famine territory, Mr. Sack said, embraces eight provinces surrounding Perm and the northern Caucasus.

BOYS DROWNED

Clemensport, N. S., July 22.—Two small sons of Fletcher Sproule, eleven and nine years old, were drowned here yesterday. The older brother tried to save the younger when he fell into the water while playing on a raft.

B.C. Salmon Get Chance For Life, Says Sloan

The Fraser River salmon is now to have a chance, according to an announcement to-day from the Hon. William Sloan, Commissioner of Fisheries.

Rehabilitation of the annual run, which has been disastrously depleted through over-fishing during the last few years, is predicted by the Department of Fisheries here as a result of the gentlemen's unwritten agreement between the State of Washington and the British Columbia Government.

As a result of this agreement all waters of Puget Sound are closed to commercial salmon fishing between August 26 and September 15 inclusive, which would normally cover the greater part of the pink run. These waters are also closed from October 26 to April 29 with the object of protecting silver-sided, chums and steelheads.

This will practically eliminate for the present season the packing of pink salmon on Puget Sound and will probably also prevent the packing of all fall fish in any quantity, as it will not pay to open the canneries for these grades after closure.

Longer Closed Hours. By the order which went into effect on Wednesday salmon fishing in the Northern and Western part of the Puget Sound district, except with (Concluded on page 4.)

AN EXTRAORDINARY HAT SALE SATURDAY

TO FORCE COUNCIL TO PAY SALARIES

The Police Commissioners Threaten Mandamus

On the motion of Police Commissioner Dr. Ernest Hall, seconded by Commissioner North and opposed by Mayor Porter, the Board will seek a mandamus to compel the City Council to pay the increase of \$15 per month to all members of the local force.

This increase was voluntarily voted the members of the force without any request being made by them, at the instance of Commissioner North, but the City Council refused to recognize it, and appealed to the Provincial Government, the matter being referred to the Lieutenant-Governor. The appeal was dismissed, as the Executive Council ruled that it was only the duty of the Government to interfere when the civic machinery fell down. The salary increase was not taken to indicate that the city's machinery had fallen down.

After a pause Mayor Porter remarked: "Well, gentlemen, we have this communication before us."

"Well it looks as though the City Council has come off second best," said Dr. Hall.

Mayor Porter remarked that he and a majority of the City Council were opposed to the increase recommended by the Police Commissioners.

Blinded By Material Interest.

Dr. Hall: "I think the Mayor and Council have been blinded by the interests of their material estates in opposing the increases which amount to the price of a few good cigars or moving picture tickets."

"For my own part, I move that we take steps to force this upon the Council by applying for a mandamus."

Commissioner North: "I second that. The Council is trying to run the Police Commissioners. My platform was for a clean administration and an increase of salary for the Police Department. I do not intend to drop any of my platform promises and will do my best to fulfill my promises to the people."

The motion was carried, Mayor Porter dissenting.

That Transformed Whisky.

The Emmett whisky seizure was again brought to the attention of the Board by a letter from P. J. Sinnott, who objected to the transformation of a keg of whisky into a keg of water during the period of its seizure, and asked that Mr. Emmett be compensated to the extent of \$296, the keg of whisky being valued at \$165, and \$235 for legal expenses.

"A high value for ten gallons of water," the letter related. Three friends who had tested it after its return to Emmett adjudged it to

Unusual Things

Anything about the home that needs washing and that will not be hurt by pure water itself may be safely immersed in the creamy, pure, cleansing Lux lather.

Silk shades, hangings, oil-pictures and their frames, jewelry, bric-a-brac, hair-locks, etc., all are purified like new with Lux.

LEVER BROTHERS LIMITED, TORONTO

water, and it was claimed that the change must have taken place at the Police Station.

Commissioners Hall and North had already disposed of Mr. Emmett's application for an investigation at a previous meeting, but Commissioner North last night declared that if Emmett wanted an investigation he should have it.

"We hold a receipt for that keg of whisky," said Chief Fry. It has been all over the place. There is the teamster who took it to the Court House and there are the officials at the Court House. It stayed down there a long time, the sheriff had it and the teamster had it and it traveled around a lot."

Dr. Hall: "When we have a receipt of that liquor we are absolutely relieved of responsibility."

Chief Fry: "Where did it disappear?"

Commissioner North: "That's what I would like to know."

Mayor Porter saw no reason why the previous decision of the Board should be reconsidered and Dr. Hall remarked that the investigation should be made by the proper authorities.

W. S. Ackroyd, of Prince Rupert, and H. McRae, formerly of the Winnipeg force, applied for positions and John Joseph Smiri, who was suspended sixteen months ago, wrote to ask that his services be no longer required he be remitted one month's salary. The former was not entertained and the latter was referred to the Chief for report.

Confidential Information.

At the opening of the meeting, Dr. Hall asked Chief Fry if there was such a thing as a detective having confidential information regarding a crime or supposed crime which he could not divulge, in other words, were there such things as privileged communications.

Chief Fry replied that there were cases of people giving the police information in confidence who did so on the understanding that they would not be brought into court, and that without first obtaining that promise they would fail to volunteer information.

Dr. Hall: "Has a detective any privilege of that kind?"

Chief Fry: "Police have privileges and discretion to use."

Dr. Hall: "The police can have full knowledge of a crime that would be of no value in court because it was obtained in confidence."

Chief Fry: "Information that is given in confidence to a detective is for him to work out."

Mayor Porter: "As a trusted member of the force for many years you have been given such confidence?"

Chief Fry: "Oh, yes. There are many ready who are ready to find fault but who are not willing to come into court to help us out."

Commissioner North: "I have never seen anyone scared to give evidence for the police but lots of them scared to give evidence against the police."

The matter was then dropped.

Complaints about boys playing baseball on the High School grounds had been dealt with by the police and the cause removed, Chief Fry reported.

Dr. Hall suggested that the clerk hereafter prepare verbatim reports of the proceedings. Commissioner North remarking that it would be a good way to check up the press.

The WEATHER

Daily Bulletin Published by the Meteorological Department

Victoria, July 22—5 a. m.—The barometer is comparatively high and fine, warm weather is general in B. C., except rain is falling on the Northern Coast. Fine, warm weather also prevails in the prairie provinces.

THE STUDENT PAYS.

While the Board of School Trustees is attempting to make up its mind where to place the blame for conditions at the High School or how to bring about an early rectification it should, contrary itself with the fact that the student will be called upon to pay the price of its indecision until it has performed its obvious duty. The average parent is concerned about the whole issue involved; but he is more concerned over the disclosures of the recent examination results combined with the fact that through some agency of which he may or may not have nothing more than a hazy conception fifty young people in this city will have to recast the whole plan of their lives to allow for the loss of one year. This is the case for the parent and the student. Both are entitled to know what the Board is prepared to do and when it is prepared to do it in order to safeguard the student life of Young Victoria.

ANOTHER HIGHWAY.

Whatever may be the decision of the Oliver Government in respect of a trans-provincial thoroughfare the Minister of Public Works will undoubtedly learn with interest that the Edmonton Automobile and Good Roads Associations have inaugurated a campaign in support of an Edmonton-Vancouver highway. From details just made public the share of the road for which the neighboring Province would have to assume responsibility amounts to something like two hundred and ninety miles of which nearly one-third already has been completed, and it is pointed out that such work would be required to link the remainder to the boundary could be carried out at a comparative small cost. As far as the British Columbia portion is concerned it is suggested by those who are conversant with the upper reaches of the North Thompson valley that only seventeen miles would have to be built to connect with the highway into the City of Kamloops.

Although the launching of a campaign of this sort does not mean that the new Government in the neighboring Province is going to fall over its feet in a hurry to oblige the motorist, joint action on the part of the two Provinces designed to connect Vancouver Island with the City of Edmonton opens up new possibilities for inter-provincial intercourse which would seem to strengthen the economic factor as far as this Province's part of such an undertaking applies. It goes without saying that unless the project contemplated for British Columbia is proceeded with the establishment of a road connection across the border to the capital of the neighboring Province would tend to divert tourist and some of the commercial business largely centered in the Interior to the North instead of to the West. By this token is the argument in favor of joint action supplied.

UPPER SILESIA.

It is not a very difficult matter for the French press to discover a condition of strained relations between Great Britain and France. One or two writers on the other side of the English channel continue to designate Mr. Lloyd George as a sort of arch-enemy who would sell the whole Entente to Germany in response for a few flattering sentences from Berlin. It is only natural that France should hesitate to fall on the neck of her age-long enemy. It is equally natural that Great Britain should not see the point of drawing the sword without carefully weighing the consequences just because some of the chauvinistic elements in France look upon Germany's police army as the

menace to European peace and a particular menace to herself. There is enough precedent in the last two years of history to discourage new campaigns in Europe. France should have learned something from her attitude towards Poland and her recognition of the Wrangel de facto Government. Upper Silesia may be an irritating spot in a vital part of Europe and it may be that the presence of more British troops would provide a salutary influence; but if the trouble may be removed without a further display of force all the argument in favor of arbitrary treatment in advance may not reduce the consequences of rash decisions. The fact that the Allied High Commission recommends the sending of more British troops does not constitute any reason why a division of Tommies should be dispatched without question or comment.

If the situation is as critical as some of the French commentators appear to believe there is all the more reason why the Allied Supreme Council should meet at once for the purpose of settling the boundary question. And then if Germany remains obdurate the remedy will not be far to seek. If France could have had her way the whole of the Ruhr would have been occupied. As it was the full weight of a determined threat produced submission. A similar procedure is still available. In any case the British bear enough burdens to help without being asked to support an extension of responsibility which may not be necessary.

THE INEVITABLE.

According to a dispatch from Paris an appeal to all the nations of the world is about to be issued in behalf of millions of starving Russians for whom it is quite impossible for the Soviet Government to provide. The stricken area is described as being twice as large as France and Germany combined and reports from the region in question indicate that epidemic diseases are rapidly getting beyond control. While it had seemed to be a foregone conclusion that the Moscow authorities would discover their shortcomings sooner or later the appeal about to be made to those nations which have contributed their quota to counteract the spread of Bolshevism is a conclusive commentary upon the suggestion that Europe was ever in danger of contracting a very serious ailment of illusionists succeeded in imposing upon more than one hundred million uneducated people. At the same time the serious element of danger lies in the fact that the spread of disease among the population in the stricken districts may provoke a great exodus and spread the contagion throughout Europe. Poland's condition two years ago and the spread of typhus which followed furnishes all the argument that is necessary in support of the provision of relief if only from the point of view of self-preservation. While the house is burning, it is useless to talk about the manner in which the fire should be put out. Extinguish the flames and its consequences. When the Russian people begin to realize the extent to which they have been "had" Soviet rule will come to a sudden end and something approaching stable government may take its place.

"SPIRIT OF '76."

Although his interest in an anti-British film and other activities which were not considered to be of any benefit to the United States in its war efforts were responsible for a ten-year sentence under the Espionage Act Robert Goldstein has announced his intention of showing his "Spirit of '76" picture at one of the New York Theatres. The film in question is intended to arouse animosity in the United States against Great Britain and the British Government. Mr. Goldstein may carry out his intention; but he will probably have an audience composed entirely of Sinn Feiners and their ilk. However, like all plotters against the peace of the world this particular individual has chosen about the most inop-

portune time to get in his work. His announcement synchronizes with the first real attempt to settle the Irish question and President Harding's initial move towards disarmament. In view of these developments in particular Mr. Goldstein will not be noticed and all he will incur will be a bill of expense for the hall which he has engaged.

NOTE AND COMMENT

During the course of a discussion in the House of Lords yesterday afternoon Lord Curzon expressed the opinion that the Irish negotiations were "charged with hope." Let us hope that there will be no premature explosion.

There is a suggestion abroad in Downing Street that Lord Northcliffe has apologized to Mr. Lloyd George for the attack upon his "unfitness" to represent the Empire at the Washington Conference. If such be the case one wonders what further use the proprietor of The London Times has for the British Prime Minister.

Is the Ottawa Government so busy that it has not sufficient time to write out its official permit for the construction of the Johnson Street bridge? It had better hurry up or else the structure will be finished before it has received its sanction for existence at all.

HOROSCOPE

FRIDAY, JULY 22, 1921.
(Copyright 1921, by The McClure Newspaper Syndicate.)

This is not a fortunate day, according to astrology. Venus and the Sun are both adverse.

It is a time to avoid any departure from beaten paths and in a day in which to devote special attention to routine business.

Venus frowns on all the activities of women, making for dissatisfaction with leaders of clubs or other organizations. It is an especially forbidding time for those who seek support or aid from business.

The planetary government is believed to encourage independence and self-sufficiency among stars in a way that reacts unfavorably.

Theaters will find this rule of the stars unhelpful since the favor of the public will be directed to the stars.

During this direction of the stars women should take account of their own necessities and refrain from seeking employment or asking for positions.

The stars declare that the next few days will be lucky for women who desire personal recognition, but that it should be favorable to organization work.

Many changes in the Presidential Cabinet during the administration of Woodrow Wilson are indicated.

Persons whose birthdate it is have the augury of a quiet, happy year. Business affairs will proceed as usual.

Children born on this day will probably be quick and intelligent. These subjects of Cancer are usually very versatile, prudent and industrious.

FARMERS TO PAY \$800,000 TO LABOR

The next step, then, was to obtain concessions which would make it more easy for British Columbia men to avail themselves of the opportunity of making a stake for the Winter. To this end the Government approached the transportation companies, and a representative of the Department of Labor proceeded to Winnipeg for a conference with representatives of these companies, and also the officers of the Employment Service in the Prairie Provinces, and then to Saskatchewan, where the Farmers' Association, the concession now announced is the outcome of their efforts.

This is the first occasion on which a special low rate has been obtained for harvest workers from British Columbia.

\$800,000 for B. C. Men. The farmers' delegates at Winnipeg expressed appreciation of the high quality of help sent to them from British Columbia for Spring and Summer work. About 1,600 men were sent, and the number falling to make good were not more than two per cent.

The minimum wage offered for prairie harvest work, so far as can be ascertained, is \$4 per day and board, and work is reported to be available for 4,000 men upwards. The average duration of employment according to Saskatchewan Government officials, is fifty days more.

These estimates would show gross earnings of \$800,000 available for the residents in this Province. The lower rates, it is stated, will apply only to bona fide harvest hands hired through Provincial Government employment offices. Every effort will be taken by the employment officials to select the right kind of men for harvest work and only those likely to be able to give satisfactory service will be sent.

B. C. SALMON GET CHANCE FOR LIFE

(Continued from page 1.)

still nets, is prohibited between 4 p. m. Thursday and 4 a. m. Saturday of each week during July and August. The same area is closed to gill net fishing between 6 a. m. Friday and 6 p. m. Saturday of each week during July and August.

The former weekly closed season was from 6 a. m. Saturday to 6 p. m. Sunday for gill nets and from 4 p. m. Friday to 4 a. m. Sunday for other gear, simultaneous with that in British Columbia.

Achievement For Mr. Babcock. For years Canadian fishing authorities have been trying to reach an agreement with the United States whereby the Fraser River salmon would be given a chance, so that the fish could get up the river to spawn. No agreement could be effected until the depletion of the fish went on at an increasing rate.

The question was recently taken up by John E. Babcock, assistant commissioner of fisheries for the Province, who went straight to the fishery officials of the State of Washington and placed the situation before them.

Benefit Both Countries. Washington State officials immediately saw Mr. Babcock's point that continuation of the present methods would result in the early death of the industry on both sides of the boundary line and decided to cooperate with British Columbia.

As the regulation of fisheries is an international matter a formal agreement could not be made between the State and the Province. To deal through Ottawa and Washington would take too much time and the matter might be held up again.

Accordingly the Washington Fisheries Board headed by E. A. Sims decided to act on its own accord in time for the 1921 season, and the salmon protection order was issued.

The orders of the Washington Board practically stop stream fishing for salmon, establish important spawning preserves and permit the greater part of this year's pink run to go unharmed, it was explained here to-day.

"We have been sitting by the bedside of the patient prescribing bread pills and hoping that he would come out all right," said Dr. C. H. Gilbert, United States fisheries expert. "But now it looks more like an autopsy than a deathbed scene. The sockeye industry is perishing and is near an end unless something is done and done quickly."

Big Runs No More. The sockeye fishery was not profitable in the off years when it was in its prime and the big years are now a thing of the past. We saw the destruction of the sockeye in 1913. The failure of 1917 was the legitimate result and 1921 will be worse. There is no reason to think that it will even approximate 1917.

"The pink run is also in a similarly perilous situation. While the big run is gone it will be possible to greatly improve all the runs over their present condition; if it is not at this Board at least provides efficient machinery by which it can be built up."

Spawning at Zero Level. In making the order Mr. Simms cited reports of Mr. Babcock showing the decreased number of sockeyes entering the Quenneville spawning area. These figures were 4,000,000 in 1909, 250,000 in 1912, and 28,000 in 1917. He said the humpback salmon running to the upper Fraser River was practically extinct.

The figures of Henry O'Malley of the U. S. Bureau of Fisheries, on the number of pink salmon eggs taken at the various stations of the Puget Sound district were given out as follows: 1912, 42,151,000 eggs; 1915, 17,315,000 eggs; 1917, 7,953,200 eggs; 1919, 80,000 eggs.

CLOTH BUTTONS. If you are making your silk-covered buttons yourself, cover the molds with soft flannel before putting on the silk. The button will be prettier and will wear better.

TWENTY-FIVE YEARS AGO TO-DAY

Acting on behalf of Her Majesty's Attorney-General for Canada, Messrs. Bodwell & Irving have issued a writ against the city to restrain it from opening a bridge from the foot of Work Street to Point Ellice without securing authority for the project from the Governor-General-in-Council. The writ also asks that the city do no work that is "in any way inconsistent with the free and convenient navigation of the harbor waters."

TO CUT GRAIN IN ALBERTA AUGUST 5

Crop Smaller Than That of Last Year

Calgary, July 22.—Harvest operations will begin in Alberta by August 5 unless most unfavorable weather sets in during the interval. Crop reports from all over the province show that the crop will be less than last year. In Southern Alberta it will be twenty per cent lower and in Northern Alberta the yield will be ten per cent down. Hot winds during the last three days have dried up the pasture very badly and indications are that there will be a grave

WINE EXPORTS GROW

France Sends Out More Liqueur to World Than Before War

Paris, June 23.—(By mail)—An increase in the exportations of wines and liquors from France in the first quarter of this year, as compared with the same period of 1913, is a surprising discovery. In the meantime France has lost two of her biggest customers for wines and brandies, Russia and the United States. Of the brandies and liquors Germany took about half, Argentina, Turkey and England followed in that order.

WHAT'S IN A NAME? Facts About Your Name: Its History, Its Meaning, Whence It Was Derived, Its Significance, Your Lucky Day and Lucky Jewels. By Mildred Marshall. Copyright, 1921, by The Wheelwrights, Inc. SHIELA. The Irish, to whom Shiela undoubtedly belongs, prefer to spell the graceful name Sheelach. Either form is correct, and the fortunate bearer of the name, growing weary of one version, may turn to the other without fear of affectation. Shiela means "bliss". It comes from the old Roman aid in popular in Italy in modern times in the guise of Zilla or Zella. Its earliest origin was among the Coelian gens, founded by the Etruscan General, Coelus Vivenna, who also named the Coelian hill. The wives of President Harding's English is assailed by some of the professors, but when it comes to getting his English on the first page Mr. Harding certainly has the blooming belle on any college professor.—Boston Transcript.

Gibbons and Mrs. Gibbons, of Westfield, Mass., are among yesterday's arrivals at the Dominion Hotel.

One of the most delightful garden parties of the Summer was that given yesterday afternoon by Mr. and Mrs. A. C. Flumerfelt at their charming home on Pemberton Road. About two hundred guests were invited and the day frocks of the ladies, with the many-hued blossoms in their vivid coloring. Tea was served from a huge marquee and refreshments were served at little tables placed under the trees. Tennis, clock-golf and croquet were arranged for the entertainment of the guests, while those who preferred on Wednesday afternoon.

STAFF OF SPENCER'S PLAN BIG OUTING. Annual Excursion Next Wednesday to Mayne Island. David Spencer, Ltd., will hold their annual staff outing on Wednesday next, July 27. The C. P. R. steamship Princess Mayne has been chartered for a trip to Mayne Island, leaving the C. P. R. wharf at ten o'clock daylight saving time. At Mayne Island a special programme of sports will be held and refreshments served and opportunity afforded the employees of indulging in bathing and all the other joys attendant upon a picnic.

FOR CHILDREN THE SANDMAN STORY FOR TONIGHT. MR. FOX SPOOLS A SAILING PARTY. Old Mr. Drake waddled down to the pond one morning, and seeing a boat nearby, made up his mind that as he had been swimming for a long time he would take life easy; so he hopped into the boat and called to the Ducks on the pond to come along. "I will be the captain," explained old Mr. Drake, "and you youngsters can be the crew. I do not mean to work any more, and should I am when I can sail about the pond in a boat." In a few minutes he had all the Ducklings on the pond in the boat, and a stiff breeze sprang up just then.

TOURISTS THROUGH ONTARIO RESORTS. Fishing, Canoeing and Other Sports Enjoyed by Americans in Laurentians. Toronto, July 23.—American tourists are now in the midst of their annual invasion of Ontario and are rustling by thousands among the alluring Summer resorts by lake and stream scattered through the wilderness of Ontario. The tourists are more charming to the eye than these crystal pools of Ontario. The deep woods hem them in. The moose bellows from the water lilies in some shallow bay. The yucca leads down her fern to drink upon some curving beach. Steep crags covered with vines and mosses rise from the water. Hundreds of rivers and streams bisect the forests and often connect a chain of lakes, so that a voyageur setting out in a canoe can paddle for days at a time through still river channels, down flashing rapids, across pellucid lakes without ever making a portage. Along the beautiful Trent waterways with a small party as a link, there is still time to travel from Lake Huron to Lake Ontario across one of the most picturesque sections of Canada.

DAUGHTERS OF ENGLAND AT ENJOYABLE PICNIC. Princess Alexandra Lodge Daughters of England, held a very enjoyable picnic at Mount Douglas Park on Wednesday, July 20. About 60 people to the ground. After lunch quite a number of the members climbed to the top of the mountain and reached the flag pole. The youngest climber to reach the flag was Douglas Barton, aged 1 1/2 years.

Famous Fishing Waters. These waters, lakes and rivers alike swarm with fish of many kinds. They are regarded by expert anglers as perhaps the best fishing waters in America. There are lakes in these Ontario woods that have never been fished by white men. These, of course, lie far to the northward, but are easily accessible to the tourist. But in the more southern region there are lakes and streams that have been fished so infrequently that they may still be considered virgin waters. Fishermen will tell you of

VICTORIA GIRL WED IN SAN FRANCISCO. Miss Gladys Foulkes Becomes Bride of Raymond Millu. A wedding of interest to many of her old friends in this city took place on Thursday evening, July 14, in Grace Cathedral, San Francisco, when Miss Gladys Foulkes, eldest daughter of Mr. and Mrs. Godfrey Lempiere Foulkes, became the bride of Mr. Raymond Millu, son of Mr. John Millu, of Houston, Mich. The impressive service was read by Dean William Gresham in the presence of 150 guests. The bride was given away by her brother, Godfrey Strother Foulkes, who was in a gown of white crepe de chine, with an overdress of heavily embroidered silk net. Her veil of tulle was confined by a cap of exquisite old point lace which had belonged to her great-grandmother and was arranged in Russian coronet style, held in place by a string of beautiful pearls, the gift of her father, and a platinum and diamond brooch, the gift of the groom, and carried a shower bouquet of roses and lilies of the valley. Her attendants were her sister, Miss Nyna Foulkes, maid of honor, and Miss Mary Kathryn Hayden, bridesmaid. Both wore pink and white organdy with tulle hats of pink satin and lace and carried bouquets of pink roses. Little Inebel Hurst, formerly of Vancouver, who acted as flower girl, also wore pink organdy and carried a basket of pink roses. The bride and groom were accompanied by Mr. J. William Millu, of Chicago, brother of the groom, acted as best man, while the ushers were Mr. Albert Hayden and Mr. Macdonald Howard. During the ceremony Mrs. Whitall Hayden sang "Oh Fair, Oh Sweet and Holy," and immediately following the reception was held at the residence of the bride's mother, which was beautifully decorated for the occasion with pink roses, while the decorations of the Cathedral were carried out entirely in ferns and white flowers. The young couple were the recipients of a great number of handsome presents, that from the Bank of Montreal, San Francisco, being a silver tea service, while the Standard Oil with which Mr. Millu is associated, gave them a case of silver cutlery. They later left for a honeymoon at the Russian River, the bride wearing a white and pink suit, with paprika and black hat, and on their return will reside in San Francisco.

MASTER AND CREW OF WEST JESTER WARMLY PRAISED

Awarded Generous Share of \$90,000 Salvage Judgment for Outstanding Bravery

Seattle, July 22.—As their share of salvage money for saving the Japanese steamship Kiyō Maru from destruction by fire in Yokohama harbor in June last year, Capt. Patrick J. Wood, master of the Shipping Board steamship West Jester, will receive a total of \$8,750 and Lt. K. Willis, chief engineer of the same vessel, will get a total of \$3,130, under a decision handed down Wednesday afternoon by United States Judge Jeremiah Netter.

Judge Netter awarded the two officers not only the full amount due them from the salvage money set aside for the personnel of the West Jester, but in addition gave Captain Wood \$5,000 from the Shipping Board's share of the money and Chief Engineer Willis \$1,500 from the Board's share. Captain Wood's share of the money awarded to the ship's personnel is approximately \$1,700 and Chief Engineer Willis' share of the same award is approximately \$1,500. The court's decision that both officers were entitled to a sum larger than their share of the personnel's award comes as a happy climax for both men.

All Night Fire.
The Kiyō Maru, one of the passenger carriers of the Toyo Kisen Kaisha, caught fire in Yokohama harbor June 16 last year. She had a number of passengers aboard and her cargo contained nitrates. All other shipping in the harbor fled from the burning vessel and then the West Jester appeared in sight and speeded to the rescue. Captain Wood labored until 4 o'clock the following morning, when it was extinguished. The West Jester's men first rescued the passengers and then risked their lives in their battle to subdue the flames.

The Toyo Kisen Kaisha settled with the Shipping Board for \$90,000, after deducting expenses, the amount to be divided on the basis of two-thirds to the Shipping Board as owner of the West Jester and the other third to Captain Wood and his heroic officers and crew.

Great Heroism Shown.
In handing down his decision, Judge Netter dwelt at length on the heroism of all aboard the West Jester, and on Captain Wood's skill as commander. He ordered that one-third of the \$79,765.24, or \$26,588.41, be divided among the personnel of the West Jester in proportion to their wages.

Attorneys for the personnel contended that the Shipping Board had settled for too small an amount, that a much larger sum should have been received.

Under the conditions of the Kiyō Maru fire, Judge Netter held that Captain Wood and Chief Engineer Willis were entitled to an award in addition to their respective shares of the \$26,588.41, and he accordingly gave the \$5,000 and \$1,500 awards to the master and chief engineer, respectively, from the Shipping Board's share of the salvage money.

The court remarked that the Kiyō Maru was fortunate in getting an amicable settlement.

While testimony was being submitted to show the basis on which the salvage money should be divided, a letter written by the American Ambassador in Japan was submitted to

the court. In the letter the Ambassador advised the American Government against filing a libel claim against the Japanese vessel.

LT-GOVERNOR ENJOYS SPIN IN TORTOISE

His Honor Pleased With Hydro-Gliding in Esquimaux Harbor

The hydro-glider of Norman A. Yarrow, ironically called The Tortoise, had a distinguished passenger on board for some trial runs in the waters of Esquimaux Harbor yesterday, in the person of His Honor Walter C. N. Nisbet, Lieutenant-Governor. His Honor made several trips in the hydro-glider, and expressed himself as delighted with the experience. After a time the Lieutenant-Governor came ashore and watched while Mr. Yarrow put the Tortoise through some of her fastest paces in the harbor. After the exhibition, His Honor was conducted over the Yarrow ship repair plant by the manager, and was seen to take a keen interest in every phase of the work in progress.

AMUNDSEN RECEIVES EVERY ENCOURAGEMENT

Seattle, July 22.—Captain Ronald Amundsen, the Norwegian explorer, who recently was forced by a broken propeller on his steamer Maud to defer an attempt to drift past the North Pole with the ice floes, to-day expressed his appreciation of the action of Norway's parliament, which a few days ago voted him 5,000 kroner to continue his Arctic voyage next summer.

Captain Amundsen announced that an appeal for volunteers to man a vessel to go to the Bering Straits and tow back the Maud, which recently was rescued from the ice by the coastguard cutter Bear, had drawn forth eight youths in one day. "They wanted no money," explained the explorer. "They were ready to go for the adventure of it. We will select about a third of the number, those most experienced in seamanship. We hope to have the vessel, not yet definitely selected, ready to sail within ten days."

Captain Amundsen said he had been overwhelmed with offers of aid from every source. The presidents of the telegraphers' and seamen's unions, he recounted, had offered to furnish him with such personnel as he needed.

ACCIDENT BRINGS DEATH TO EMPLOYEE

Vancouver, July 21.—The death of John Overhill, of Vancouver, in a motor launch accident in the Sea of Okhotsk, has been announced by the Hudson's Bay company, the news having been received by cable from Japan. Mr. Overhill was one of the engineers taken on to the Casco to operate one of the "tunnel" boats that the Hudson's Bay Company sent into the Siberian country to open trade there.

Details of the tragedy were not received beyond the fact that it occurred through the explosion of a gasoline tank on one of the launches on June 25. The body was buried at Petropaulovski, Kamchatka. Mr. Overhill was forty-five years of age and left a wife and one daughter, Sadie, living at 224 Sixth Avenue West.

SHIPPING NEWS FROM DAY TO DAY

Cleared To-day With Record List of Passengers

C. P. O. S. EMPRESS OF RUSSIA taking 1,100 passengers to Orient on outbound run; cleared from port at 9:00 a. m. this morning in ideal weather.

EMPRESS OF SCOTLAND WILL BE LARGEST ON CANADIAN ROUTE

New C. P. O. S. Liner Will Shortly Make Debut
Quebec, July 21.—The largest liner ever assigned to the St. Lawrence route is soon to make her initial appearance at Quebec according to announcements made by the C.P.O.S. This steamer is their newly acquired liner the Empress of Scotland, formerly the German liner Kaiserin Auguste Victoria, and she is expected to arrive at Quebec during the first week in August.

The C. P. O. S. purchased this liner from the British Government last Winter when it was seen that the company's own steamers, which are now being built in England, would not be ready this season on account of the delay arising from the big strike in the ship yards there.

The new Empress of Scotland is of 25,000 gross tons. The liner ran after the armistice, under the Canadian house flag from Liverpool to New York. She is a first, second and third class carrier with luxurious cabin equipment. The liner was built in 1905 and was especially designed for the New York service.

MARINE NOTES

Two mail officials of the Katori Maru, missing the boat as she cleared from this port for Seattle at 10:45 a. m. yesterday, were found later by W. R. Dale, local agent and shipper on board the Sol Duc in the interim the two Japanese were the guests of Mr. Dale in a comprehensive tour of the city.

Frank Walters, the diver who secured the safe from the Princess Sophia recently, in a private enterprise of his own has for the last month been trying to locate the safe and gold-treasure of the steamer Islander, lost twenty years ago in Alaskan waters. Gold nuggets to a value of \$200,000 were on the ship, while the pursers safe was thought to have contained a like amount in valuables, Walters reports that the safe or treasure may not be reached, as shifting sand covers the wreck as fast as it can be removed.

Sixty tons of liquor for the Provincial Government were landed here yesterday afternoon by the Dutch freighter Eemidijk. Captain J. G. Deiker reported that he had a large cargo movement of storage eggs, and other perishables for the outbound run to the Orient. The Eemidijk brought a large liquor consignment for the Government at Vancouver.

The O. S. K. Hawaii Maru, loading at Sound ports, will clear from this port to-morrow at 5 p. m. out-bound for the Orient.

EMPRESS OF RUSSIA CARRIED LARGE LIST

Outbound for Orient Crack Liner of C. P. O. S. Fleet Cleared This Morning
The C. P. O. S. Empress of Russia cleared shortly after 9 a. m. to-day, standard time, with a large passenger list for the Orient, and considerable freight. Once again the crack liner of the trans-Pacific service is carrying mail, and proudly displayed her mail pennant at the docks to-day.

The Empress of Russia carried 1,100 souls besides her complement. Saloon passengers numbered 210, 89 second class, 13 third class, and 700 traveling steerage. The Russia cleared from Vancouver at 8 p. m. last night, and made a leisurely trip down the Straits to this port. Scheduled to clear from here at 8 a. m. standard time, the Russia got away a little later, with a fair list of passengers embarking at this port.

The steerage passengers include 270 Chinese from Cuba, who came over the C. P. R. in bond and who are going back to their native land after working in the South for some time.

Her cargo includes almost everything imaginable. Corpses and automobiles will fill the holds. The former are the bodies of Chinese being sent home for burial, according to the ancient custom. Thursday the stevedores were busy loading a number of shingle bolts, and a car of copper and one of lead, in ingots.

TWO ACCIDENTS BRING LOSSES TO PACIFIC STEAMSHIPS

Queen and Admiral Farragut Are Disabled
According to a further press dispatch from San Francisco, the Pacific Steamship Company has sustained another misfortune in that the Admiral Farragut, twelve miles north of that port, sustained an explosion in a feed pipe. When last heard from the Admiral Farragut was drifting helplessly in a thick fog. A few days ago the Admiral Farragut towed the steamer Queen of the same line to port, when the latter had broken down with engine trouble some distance out on her southern run. The Admiral Farragut was on her way to Seattle with passengers and freight and had cleared from San Francisco but an hour when the explosion took place.

The sudden death of Captain H. H. Marden, pilot of the S.S. Governor at the time of her loss, is reported. The death of Captain Marden occurred at Seattle on Wednesday night, in hospital, where the late captain had been for some time. In ill health, with his application for the revision of the order which suspended his certificate, Captain Marden died under tragic circumstances and will be very greatly missed. He was born at Stockton, Maine, in 1852.

Small Craft Is Crossing Atlantic
Halifax, July 22.—The 35-ft. yacht Neith, commanded by Sidney Houghton, which left Halifax on Wednesday bound for London, arrived at day bound for London, arrived at day and sailed from there Tuesday morning for the south coast of Ireland, according to a radio message received here. The yacht is expected to cross the Atlantic within three weeks.

SAYS STABBED MAN IN SELF-DEFENCE

Seattle, July 22.—George Kreisler, 21, a member of the crew of the steamer City of Seattle, is in a hospital here to-day in a serious condition from knife wounds, received during a fight in the galley of the steamer on Wednesday while she was on her way here from southeastern Alaskan ports. G. A. Rawlings, cook on the ship, is held in connection with the affray. Rawlings admitted he had stabbed Kreisler, but said it was done in self-defence.

ADMIRAL LINE CRAFT MAKES RECORD

Portland, Ore., July 22.—The steamer Pawlet, commanded by Captain Z. R. Murray, which docked here Tuesday night, broke all records for vessels of the Admiral Line, plying between Portland and the Orient by making the trip across from Yokohama to the Columbia River in 15 days and two hours. This is an average of 282 miles a day. The Abercrombie formerly held the record with 15 days 5 hours. The record was set on a lake during the entire 15 days' trip, according to Captain Murray.

TUNA FISHERS CHANGE TO SALMON

Tuna fishermen of Los Angeles, disappointed at the low price of \$50 a ton offered them by the dealers for their catches, have forsaken their tuna operations in the South and are coming North to revert to the salmon fishing off the Columbia River. It is stated, thirty-five pure seine boats cleared recently for the North, and these are to be followed shortly by the balance of the fleet that was engaged in tuna fishing. The tuna sporting fish of immense proportions at one time was in great demand, but the demand appears to have subsided, according to the latest accounts.

DOLLAR CRAFT WILL CARRY BARLEY OUT

San Francisco, July 22.—Eight sailing vessels of the Robert Dollar Steamship Company, tied up here, will be loaded with barley for the allied reparations commission and sent to England, the company announces. This decision was made, company officials said, after efforts to sell them had been unsuccessful.

FRENCH GUN BOAT PROTECTING FISHERS ON MARITIME COAST

Quebec, July 21.—The French gunboat "Ville D'Ys" arrived in Quebec recently and was greeted by a salute from the Citadel. She has been doing duty on the Banks, protecting French fishing rights and is well known here. The "Ville D'Ys" under the command of Captain Du Rocher, has a crew of 100 with 11 officers. She is lying alongside the French cruiser "Antares" in the Breakwater.

BESSIE DOLLAR WILL HAVE REPAIRS

Vancouver, July 22.—With 600 tons of general cargo from the Atlantic seaboard, the Canadian River steamer Bessie Dollar, which departed Thursday from New York, passed Victoria at eight o'clock and made a fast run to her dock. She is posted to sail again on July 28 with a cargo of lumber and general.

SMALL CRAFT IS CROSSING ATLANTIC

Halifax, July 22.—The 35-ft. yacht Neith, commanded by Sidney Houghton, which left Halifax on Wednesday bound for London, arrived at day bound for London, arrived at day and sailed from there Tuesday morning for the south coast of Ireland, according to a radio message received here. The yacht is expected to cross the Atlantic within three weeks.

NEWS IN BRIEF

Esquimalt Police Court—In the Esquimalt Police court yesterday before Magistrate J. J. McEwen, A. Poynt, Marthaniel, Berth, and the Fitzpatrick Taxo Company were each fined \$5 for offences under the Motor Act, and street regulations.

At Summer School To-night—Dr. George W. Weir, principal of the Saanichton Normal School, will give an address to the students of the Victoria Summer School this evening. His subject will be "The Educational Outlook." During the evening vocal solos will also be given by Robert Mackenzie.

Kumtuka Club Luncheon—At the fortnightly luncheon of the Kumtuka Club to be held on Monday noon at the Dorothy Tea Rooms, Fort and Broad Streets, Miss M. L. Ringland, lady hostess, will be the speaker. Miss Ringland will give an address on "Woman Jurors," a subject which should be of paramount interest to the members as the question of citizenship and its duties is now being taken up by the club.

Silver Band to Visit—The Calgary Salvation Army Silver Band will visit Victoria on Tuesday, July 25. They will be received and welcomed to the city by Mayor Porter at 11.30 a.m. at the City Hall. This splendid combination of musicians will give several open air concerts during the day and in the evening will render a very fine programme of vocal and instrumental music. The band consists of thirty-two thoroughly trained musicians.

Royal Society of St. George—At the meeting of the Royal Society of St. George last evening, Dean Quinlan gave a humorous little talk on "What is a Picnic," a propos of the society's plans to hold a basket picnic at Deep Bay on August 6. A musical programme arranged by Mrs. P. K. Leach included a piano solo by Miss Collingridge, vocal numbers by Miss Constance Moore and Maurice Moss, and recitation by Miss Clara Powell.

Chinaman Accused of Theft—In the person of Joe Sing, Chinaman, the provincial police believe they have found the person who has been responsible for the theft of a large quantity of clothing and other articles from summer camps. Charged in the provincial police court yesterday with this offence, in relation to property alleged to have been taken by him from the Y. M. C. A. camp at the Gorge, Joe Sing was remanded until Saturday for hearing, when additional evidence is to be brought. It is held that the thefts have been noted from the city to Shewanigan, Sooke and most of the outlying district—and a large number of articles have been reported lost from camps by the wayside.

Veterans of France Meet—Nearly a hundred attended the regular session of the Veterans of France last night in their clubrooms on Douglas Street, when a number of matters of routine business was considered. Comrades Stuart and Forest were chosen officers of the canteen, with Comrades W. Day and E. C. Forest as conductors for the next six months. Comrade Stewart was appointed to the committee on visiting the sick. Comrade Bloom gave notice of motion to increase the dues of the organization fifty cents per month. The next general meeting is to be held on August 4. Plans were made to give the organization representation upon the committee to decorate soldiers' graves in Ross Bay Cemetery.

Sunday Newspaper Selling—Rev. C. H. Huestis, of Red Deer, Alta., informed the Vancouver Police Commission Thursday by letter that the three Vancouver daily newspapers would shortly be publishing and selling Sunday editions. On behalf of the Lord's Day Alliance, of which he is secretary for Western Canada, he urges the police board to put a stop to Sunday newspapers in Canada. His letter follows: "We have been informed on good authority that unless action is taken against the present sale of newspapers in Vancouver, two other local papers will issue and sell on Sunday also. It is also stated that dates in other parts of the Province will follow suit. 'May we, therefore, urge that action be taken to deal with this long-standing infraction of the Lord's Day Act in your city.' The commissioners will discuss the letters at the regular meeting three weeks hence.

Lord Northcliffe's Visit—Lord Northcliffe, in his world tour, is expected to reach Victoria about August 6.

Motor Buses Arrive—Now that the warm summer days are here there is a considerable movement of smaller craft in and about Victoria, and numerous launches have arrived from the United States from mainland points. All along the east coast of Vancouver Island small craft are carrying holiday parties through the unsurpassed scenery afforded, and a large number of the visitors have spent a day or two in the Inner Harbour or the neighboring bays.

Spending on Malahat—Vincent G. Townsend was charged in the Provincial Police Court this morning before Magistrate Jay with speeding on the Island Highway and also with falling to carry a tail-light on his car. The case was remanded until next Friday at 11 o'clock.

Garden Party To-morrow—The garden party arranged by the ladies of St. James' Anglican Church will take place at 3 o'clock to-morrow afternoon, and will be held in the grounds of the Munro estate, corner of Douglas and Michigan Streets. Various stalls for the sale of work have been erected, and there will be a number of interesting features. It is anticipated that there will be a large attendance.

PUBLIC LECTURE

This Evening 8 o'clock

AT THE EMPRESS HOTEL

Subject: "THE COMING OF A WORLD TEACHER"

Speaker, The Right Rev. Irving S. Cooper

Wants Maintenance—The wife of Leslie Walmsey appeared before Magistrate Jay in the City Police Court on an appeal for maintenance. R. C. Lowe appeared for the husband and asked for a remand until July 26, which was granted.

Get Two Months—Lee, a Chinaman, was charged in the City Police Court this morning with being in possession of cocaine. Accused pleaded guilty to having opium, but not cocaine, and Magistrate Jay imposed a sentence of two months' imprisonment.

Heat and Campers Increase Fires

Government Rangers Save Much Timber by Being on the Job

Hot weather and high winds have increased the fire hazard in the forests all over British Columbia, according to to-day's fire report from district foresters to P. Z. Caverhill, Chief Forester.

So far this season 378 fires have been reported. Most of these have been extinguished in their early stages, so no great cost has been incurred.

Reports show that 77.2 per cent. of the fires are attributed to campers and travellers.

"This would indicate that the appeal to be 'Careful With Camp Fires' directed through the press has not produced the hopeful results anticipated and that the campaign pointing out the necessity for care with camp fires must be unceasingly kept up," said Mr. Caverhill to-day.

Forest Men Cut Losses.

"Fortunately 44 per cent. of these fires were extinguished by the forest branch staff before reaching a size of one-quarter of an acre. But 25 per cent. assumed proportions of ten acres or more and one burned over 970 acres before being extinguished.

The fact that the rangers can keep in close touch with fixed hazards, such as logging engines, and that the regulations for supplying fire fighting equipment are being complied with by the operators, has resulted in a marked reduction in the number of fires from this cause. Similar supervision cannot be kept over the travelling public with the result that the carelessly lit fire and the burning cigarette tossed aside continue to take their toll from the forest wealth of the Province."

ROME'S CORSO

Historic Structure Being Displaced by Business Buildings

Rome, July 22.—(Delayed)—Slowly the god of commerce is pushing away a little at a time the romance and antiquity of this cradle of civilization.

The Corso, from the time of Roman emperors the busiest thoroughfare of the city, is losing its ancient character. The four huge triumphal arches which spanned the street were destroyed centuries ago. Palaces and churches were left, but the palaces are falling before the irresistible advance of commerce.

Two huge old palaces occupying a site halfway up the Corso have already gone down before the commercial onslaught. In their place have been reared two big, gaudy structures to be occupied by banks, which stand out in bold contrast to the quiet coloring of the ancient part of architecture.

When the palaces are not torn down, they are modified in such a way that the interior decoration, some of which has stood the test of centuries, is effaced and sometimes plastered. Numerous alterations are made to suit the necessities of business.

In the quarter where the Church of St. John Lateran is located a new amusement company has taken possession of a large square of vacant ground and has erected carousels, roller coasters, Ferris wheels and shows. The romance and beauty of the spot has vanished.

AMPLIFIER CARRIES SPEECH TO MILLIONS

Many in United States Hear Orator Through New Device

New York, July 22.—A speech made in New York can be heard in the remotest parts of the United States, millions of people in every city in the United States.

Experiments at Yama Farms in the Catskill mountains prove it. Every word and modulation of tone by a speaker in Chicago and the delicate strains of a violin played in the same city were heard by a crowd of American Telegraph and Telephone Company officials scattered over an area of one and a half miles.

Amplifiers—connected with telephone wires—did it. Eight wooden horns, telescopic in shape and each ten and one-half feet long, carried the tones with exact fidelity—multiplied a million times!

Men stationed a mile and a quarter from the tower where the horns were placed, heard every whispered word and faintest strain of music. Others two and three miles distant also caught the thousand-mile sounds.

Heard Four Miles Off

And at night a man stood on a hill

WORDS OF WISE MEN

Who is successful can afford to smile; he that is not cannot afford to do otherwise.

There is one thing which the most unobtrusive person manages to see—that which we do not want him to see.

If you faithfully trudge the path of daily duty, you will sometime find Opportunity walking beside you.

He is not a musician who can play but one tune; nor is he a pattern of life who is always on one duty.

P. O. E. TRACKS ENTER QUESNEL

Cariboo Centre Has First Rail Connection With World To-day

Quesnel, pioneer town of the Cariboo, is in direct railway communication with Vancouver and the Coast as a result of track-laying on the Pacific Great Eastern Railway being completed into that town to-day, the Department of Railways announced this morning.

The line was to have been completed to Quesnel by July 1 and residents made preparations for a great Dominion Day celebration to mark the advent of the railway. Delay in the construction of the bridge over the Quesnel River, however, held up the track-laying.

Track-laying will now be pushed over the Cottonwood River, sixteen miles north of Quesnel. It is expected to complete this section before the end of August.

When Cottonwood is reached Premier Oliver proposes to give the world the chance to see just what the Pacific Great Eastern is really like. It is proposed to run a special train of Pullman from Squamish over the completed section of the road. Members of the Legislature and representatives of public bodies will make the trip.

As soon as track-laying reaches the Cottonwood construction of the big steel viaduct over the river will start. This work will be done by the Dominion Bridge Co., which expects to complete the job before the end of October.

Because of financial conditions and the high cost of money, it is not yet decided whether the section of the line between Cottonwood and Prince George, 63 miles, will be completed this year. Speed can be made on this final section of the line as work can be carried on from both ends.

TORTOISE PLEASES DEPUTY MINISTER

G. J. Desbarats, C.M.G., Delighted With Trip in Yarrow Hydro-glider

G. J. Desbarats, C. M. G., Deputy Minister of the Department of Naval Services was a visitor to the Yarrow ship repair plant this morning. He was an enthusiastic passenger on board the hydro-glider operated by Norman A. Yarrow. The Tortoise, as the glider is called, carried about the harbor with the Deputy Minister on board, and returned later. Mr. Desbarats expressed himself as delighted with the experience. Following the exhibition Mr. Yarrow showed the Deputy Minister over his ship repair plant, which was examined with interest. Previously Mr. Desbarats had visited the Esquimalt drydock.

TRADE CHANGES ROME'S CORSO

Historic Structure Being Displaced by Business Buildings

Rome, July 22.—(Delayed)—Slowly the god of commerce is pushing away a little at a time the romance and antiquity of this cradle of civilization.

The Corso, from the time of Roman emperors the busiest thoroughfare of the city, is losing its ancient character. The four huge triumphal arches which spanned the street were destroyed centuries ago. Palaces and churches were left, but the palaces are falling before the irresistible advance of commerce.

Two huge old palaces occupying a site halfway up the Corso have already gone down before the commercial onslaught. In their place have been reared two big, gaudy structures to be occupied by banks, which stand out in bold contrast to the quiet coloring of the ancient part of architecture.

When the palaces are not torn down, they are modified in such a way that the interior decoration, some of which has stood the test of centuries, is effaced and sometimes plastered. Numerous alterations are made to suit the necessities of business.

In the quarter where the Church of St. John Lateran is located a new amusement company has taken possession of a large square of vacant ground and has erected carousels, roller coasters, Ferris wheels and shows. The romance and beauty of the spot has vanished.

AMPLIFIER CARRIES SPEECH TO MILLIONS

Many in United States Hear Orator Through New Device

New York, July 22.—A speech made in New York can be heard in the remotest parts of the United States, millions of people in every city in the United States.

Experiments at Yama Farms in the Catskill mountains prove it. Every word and modulation of tone by a speaker in Chicago and the delicate strains of a violin played in the same city were heard by a crowd of American Telegraph and Telephone Company officials scattered over an area of one and a half miles.

Amplifiers—connected with telephone wires—did it. Eight wooden horns, telescopic in shape and each ten and one-half feet long, carried the tones with exact fidelity—multiplied a million times!

Men stationed a mile and a quarter from the tower where the horns were placed, heard every whispered word and faintest strain of music. Others two and three miles distant also caught the thousand-mile sounds.

Heard Four Miles Off

And at night a man stood on a hill

ZAM-BUK

REMOVING FAT

If you would remove fat from the soup which is intended for a delicate stomach place a wire sieve on ice to chill it, then remove and pour the soup through it into a container.

Ramsay's Family Cream Sodas

LET your hot weather "snacks" and Summer luncheons be based on Ramsay's Family Cream Sodas. They will supply the driving power, the nourishing element, in crisp and tempting form. Ramsay's Family Cream Sodas possess the strength-sustaining qualities of Canada's finest wheat, carefully blended. Made in B. C. These light and flaky biscuits come in almost double the quantity at half the cost.

Three Homers in One Inning Beat Yakima

Sensational Rally in Seventh Inning of Evening Game Brought Victory to Capitals; Hansen Pitched Splendid Ball; Washington and Patton Booted Away Afternoon Tussle in First Inning.

First Game—Yakima, 13; Victoria, 4. Second Game—Victoria, 5; Yakima, 2.

Victoria's baseball stock went down as fast as a toboggan on an icy slide after an awful exhibition at the Stadium yesterday afternoon, but it made a sensational recovery in the evening and climbed as fast as the mercury in a thermometer in Toronto during the recent heat wave.

It seemed impossible that the team which looked like a gang of bushers in the afternoon was the same outfit which bound and gagged the Yakima Braves in the twilight party. The pitching had a whole lot to do with the reversal of form. Washington, who tried to humiliate the visitors in the first game, was the victim of severe stage fright and gave a woeful exhibition.

Patton, the usually efficient shortstop, was Washington's companion in misery, committing no less than three miscues in the field. Poor Ole Cooper. In the evening big Elmer Hansen ascended the hillock and he made Tealey Raymond's million-dollar infield, his pitching, usually efficient, his "greatest" out in minor league baseball, look like thirty cents that had been through a mending machine.

The Braves were in the game for seven innings but they got such a smack in the eye in that aspm that he forgot all about the talk of his going to the big leagues. Cooper felt the Capital's close him for three home runs and a single in the seventh, which were good enough for five runs and the game.

There is very little to say about the afternoon game. One does not like writing about losses. The wins are far more cheerful. The whole trouble for the defeat was due to Washington and Patton's poor play in the first inning. Each player contributed two dandy errors in this frame, which, with the three hits Washington allowed, were good enough for five runs, sufficient to win the game.

Braves After More. Yakima, however, was not content with the first inning lead but kept punching Washington at frequent intervals. In the fourth Jensen's triple, Cadman's single, Washington's wild pitch, Patton's error and Hansen's walk, a single by Elliott and a stolen base, gave the Braves four more runs.

The visitors annexed another pair of counters in the sixth and gathered two more in the seventh. Victoria got into the game for a couple of moments, scoring two runs in the third and two more in the fourth, but after that old Pat Eastley found his bag of horsehoes and the Capitals could do nothing with him.

One of the most exciting things of the afternoon was the call of the umpire Carroll, who resented the comeback of Manager Hansen and chased him out of the park. Carroll let Cadman hit him all afternoon as though he were at a 5 o'clock tea.

A Different Story. There is a different story to tell over the second game. The Capitals played bang-up ball behind the splendid twirling of Manager Hansen's first three innings and the men faced Hansen. In the fourth the Braves shoved over their first run on a remarkable bit of base-running by Elliott. Hansen pitched a pass and Elliott sent him to third with a double. Nixon then shot a short drive to centre and Lafayette held third expecting a catch. Elliott, however, did not hesitate but hit for home. When the ball fell safe Lafayette also started for the plate. The peg to the platter was good and Rego tagged Lafayette with a foul ball and Elliott sent him to third with a double. Nixon then shot a short drive to centre and Lafayette held third expecting a catch.

Snappy fielding by the Braves down in the fifth and sixth but in the seventh they scored another run on Patton's fumble with a double play all set up. In the eighth Hansen got by the first six innings by giving the Capitals but three scattered hits. In the third the caps filled up the bases but could not deliver the ball out of the park. Shots belted out a single and Handley followed the example of his brilliant leader by passing the ball over the wall. Foots Bankhead could not resist the temptation and he also hit the horsehide out in the direction of Beacon Hill park for a circuit of the bases. Five runs were gathered during the hitting spree and it gave the fans a lot of heart.

The Braves could do nothing with Hansen's delivery in the last two innings, only six men stepping to the plate. The Capitals now have the edge on the series, having taken two out of the three games played. The teams will play again this evening at 6:30 o'clock at the Stadium and again tomorrow afternoon at 2:30 o'clock at Seattle.

Toots Bankhead provided two spectacular catches in the double-header. In the first game he robbed Harrigan of a double by taking the ball with his glove hand a few inches from the ground as he was tearing towards the fence. In the evening game he pulled the drive from Lafayette's bat in the first inning.

The Heralds are, proving to be a very victorious clan, winning another 30-11. Barrera again took the mound and pitched a good game, making his fourth win in a row. The Wards' battery was not up to the strength of last night and Moffat, who commenced the pitching for the Wards, had to be replaced by Dave, who finished the game.

Miss Ross, Vancouver, and Weinstein, San Francisco, beat Miss Fraser and Jones, Vancouver, 1-6 7-5, 7-5. Mrs. Rickaby, Victoria, and C. S. Stickey, San Francisco, beat Mrs. Bourque and Allen, Seattle, 6-4, 6-4.

Mr. and Mrs. Greaves beat Mrs. Milne, Vancouver, and Taylor, Seattle, 6-0, 6-2.

MARJORIE LEEMING WINS GAME EASILY

Famous Young Tennis Star Making Fine Impression Vancouver Tournament

Vancouver, July 22.—With two exceptions competitors in the Mainland tennis championships ran true to form yesterday afternoon, and the stars in the various events are nearing the semi-finals, and will be reached to-day. Good weather and a big gallery favored the play.

The first exception was the defeat of Mrs. Bourque and Marshall Allen, the Seattle team, by Mrs. Rickaby, Victoria, and C. S. Stickey, San Francisco, the scores being 6-4, 6-4. Mrs. Bourque, who is one of the strongest lady competitors in the tourney, sustained her second defeat of the day, having lost out to Mrs. Milne, Vancouver. Mrs. Rickaby and Stickey played in magnificent form and while Allen played well, Mrs. Bourque was compelled to take the defeat of Mrs. Milne and Will Taylor, Seattle, by Mr. and Mrs. Greaves, who put up the finest exhibition of their careers in a wonderful combination game. Mr. and Mrs. Greaves are scheduled to play Mrs. Leeming and D. M. Gordon, the Victoria team, in the semifinals.

Youngster Did Well. The outstanding feature of the day was the excellent fight put up by young Geoffrey Peers, Vancouver, against Irving Weinstein, San Francisco crack. The local boy dropped the first set 6-4, and then forced the score to 6-6, before conceding the match. Peers showed fine, all round play, but Weinstein's cleverness and experience won him the match.

Marshall Allen, Seattle, was in his best form, and easily disposed of Mrs. Harry Jacques and Harry Jacques, Taylor in the men's singles on Wednesday. The local man was beaten on placing and was helpless.

Miss Leeming, the young Victoria marvel, had little difficulty in disposing of Miss Elliott in straight sets, 6-2, 6-1. Her splendid volleying and difficult recoveries proved too much for Miss Elliott.—Mrs. Verley suffered defeat at the hands of Mrs. Robinson, of Idaho. Although forced to extra games in the second set, Mrs. Robinson won the match, 6-2, 10-8.

Yesterday's results were as follows: Ladies' Singles. Miss Leeming, Victoria, beat Miss Elliott, 6-2, 6-1. Mrs. Robinson, Idaho, beat Mrs. Verley, 6-2, 10-8. Mrs. Milne beat Mrs. Bourque, Seattle, 6-3, 5-7, 9-7. Mrs. Diamond beat Mrs. Brooms, 6-4, 6-0.

Men's Singles. H. Suhr, San Francisco, beat Dingman, Vancouver, 6-2, 6-2. W. Ingraham, Rhode Island, beat Ross, Seattle, 6-1, 6-2. Weinstein beat Peers, 6-4, 6-3. Marshall Allen, Seattle, beat Verley, 6-3, 5-7, 9-7. Verley beat Vickery, Victoria, 3-6, 6-1, 6-0. Wilson Smith, Seattle, beat Stickey, San Francisco, 5-4, 4-6, 6-3.

Men's Doubles. H. Bettins and H. Suhr, San Francisco, beat Harry Jackson and Fletcher, Winnipeg, by default. Ingraham and L. Villegas, Seattle, beat Falls and Muir, Vancouver, 6-4, 6-4. Mixed Doubles. Mrs. Milne, Vancouver, and Taylor, Seattle, beat Miss McRae and Hutchison, Vancouver, 6-0, 6-2.

Eighteen entries have been received to date for the Colonist Canoe Marathon, which is to be held next Wednesday evening under the auspices of the V. I. A. A. Several entries have been refused on the request of the B. C. A. A. U., and at the starting gun being in good order, standing. Both Edna Curry and Frances Bayley were anxious to take part in the event, but will be prevented from so doing by virtue of losing their amateur standing, by taking part in an unannounced ice hockey game last winter.

All of the entrants have been practicing every evening during the last week, and it is expected that an exciting race will be witnessed. The commencement of the race will take place at 7:45 o'clock at the public landing in front of the Empress Hotel, and at the starting gun the canoeists will proceed up the Gorge to a buoy, which will be anchored in front of the Gorge bridge, where they will turn and proceed to the finishing point at the V. I. A. A. Country Club at Curtis Point. The entries received to date are as follows: Victoria Amateur Swimming Club. Miss Grace Weiburn and J. Wood. Miss D. Johnston and P. Mitchell. Miss C. Clapham and F. Palmer. J. B. A. A. Unattached. Mrs. Jessie Lovatt and Geo. Lovatt. V. I. A. A. Miss Audrey Griffin and Jack Andros. Mrs. Harry Jacques and Harry Jacques. CITIES MEET TO PREPARE FINANCE FIGHT

(Continued from page 1.)

Usually the Union's annual meeting is held later in the Fall, but an early date was chosen this year in order that the cities may be fully prepared for the fight which they intend to wage against the Provincial Government.

Plan Vigorous Fight.

The new executive which will be elected by the Union at Port Alberni, it is expected, will be fully instructed on the financial problems of the municipalities. It will enable them to meet the Government's proposals in the Legislature with complete data and possibly a definite programme of financial reform. The executive will meet Premier Oliver and members of the Government early in the Fall and explain the financial troubles of the municipalities in accordance with a plan announced by the Premier in the closing hours of the Legislature's last session.

When the Legislature meets to give particular attention to municipal legislation, the Union representatives, as usual, will assemble here to impress the views of the cities upon the members. Already the Government has learned the views of most of the municipalities through the medium of a questionnaire sent out to all municipal councils.

HON. JOHN HART TO CUT B. C. INCOME TAX

(Continued from page 1.)

turns and our interpretation of the Taxation Act in certain particulars. From the remarks and attitude of the gentleman who called upon me it was fully apparent that the mercantile and industrial community is anxious to play fair with the Province and co-operate with my Department; and it was equally apparent that they recognize the Taxation Branch is desirous to be fair to everyone.

"I took advantage of the presence of such an influential delegation of business-men to point out in a confidential chat the splendid financial condition of the Province and the careful manner in which we are financing the many and expensive development works which we have on hand. It was pleasing to find that our policy has the general support of men who are heavily interested financially in the Province. It was also a short time when preliminary reports of a shortage in the beet crop abroad are confirmed. He expressed the opinion that should the current reports from abroad be correct, this point might be a short beet crop come to the market abroad, the sugar price will be taken out of the sugar market here.

DOMINION PLAN FOR IRELAND

(Continued from page 1.)

To Dublin.

London, July 22.—The centre of interest in Irish affairs was transferred to Dublin to-day with the departure of Eamonn de Valera and his Sinn Fein delegation for that city. The Sinn Fein leader is taking with him a document he received yesterday from Premier Lloyd George setting forth definite proposals from the British Government as a settlement of the Irish problem.

These proposals will be submitted to members of the Dail Eireann as well as other prominent Irish "republicans" and Premier Lloyd George will hear from time to time how the discussions are proceeding. Later, De Valera will return to London for further conversations, and Sir James Craig, the Ulster Premier, may re-enter the negotiations at that time.

It is authoritatively stated that the true in Ireland will continue for an indefinite period, thus convincing the most sceptical that the factions still are far from discouragement.

From London.

London, July 22.—Eamonn de Valera, Irish "republican" leader, arrived at Euston Station shortly after 3 o'clock this morning to take a train for Dublin. To newspapermen who pressed him for an interview he said: "Although the immediate future is uncertain, we have perfect confidence in the ultimate success of our cause." A few minutes later he stood up in his carriage to address the large crowd of Sinn Fein enthusiasts who swarmed about the station. First in Irish, then in English, he thanked them for coming out so early in the morning to bid him goodbye, and said everyone who went he found the same enthusiasm for the Sinn Fein, which only a just cause could inspire. "I am perfectly certain our cause will win in the end. It may take some time to accomplish, but success certainly will come. Of that I am confident," he said.

Irish Comments.

Dublin, July 22.—The Irish Times, commenting on the conference between De Valera, Irish Sinn Fein leader, and Premier Lloyd George and De Valera's return to Dublin says the public will derive satisfaction from the fact that the proposals submitted emanated from the coalition

FORCE IN SILESIA FRENCH PURPOSE

(Continued from page 1.)

not resist, even though her resources are greater than those of France.

"France realizes that if Germany can again absorb Poland and the various Danube States the horrors of the last century will begin again. France has promised to defend the states created by the treaty, and she alone can prevent the organization of Europe by the technicians of Berlin, Munich and Vienna."

Troops Ready.

Paris, July 22.—The departure for Upper Silesia of a French division in readiness on the Rhine, was said in official circles this forenoon to be a question of forty-eight hours.

The Government will await a reply to the note to Great Britain, which is expected during a day or two. Immediately afterward, it is forecast, marching orders will be given to the division which will proceed to Silesia through Germany.

Italian Note.

Rome, July 22.—The Tribuna today says an Italian note to Germany

"BIG JIM" BARNES IS LEADING GOLFER

Murray, of Montreal, Is Close Behind in Race for U. S. Golf Championship

Washington, July 22.—With Jim Barnes, of Pelham, N. Y., well out in front of a field of 76 competitors in the national open golf championship, play in the final day of the 25th annual classic opened here to-day, over the course of the Columbia Country Club.

Barnes leads Fred McLeod, of Washington, and Charles H. Murray, of Montreal, who are tied for second place by four shots and appears to be the choice for the championship.

Washington, July 22.—Abe Mitchell, prominent British entrant, picked up his ball at the ninth hole yesterday afternoon and withdrew from the national open golf tournament. He had 32 strokes to the 9th hole this afternoon and had a 16-foot putt for the ninth, when he picked up his ball. He had 71 in the morning, one over his best score of the first round. He gave as his reason the fact that he was, as he expressed it, "fed up" on golf and the hot weather and just quit as he realized he was below his usual standard.

Nicol Thompson, Toronto, had a score of 167, and George Aylon, Montreal, a score of 163.

George Duncan, of the Financiers Club of London, England, turned in the lowest card in the first round. Duncan had a score of 72, leading Charles Egan, of Chicago, the American amateur champion, by one stroke.

BRIGHOUSE RACING

Vancouver, July 22.—Cal Curm, the twelve-year-old veteran, came back yesterday, nosed out the favorite, and led a field of 11-horse in the third race at Brighouse Park.

The Results:

First race: Lady Astor claiming purse, \$400, for three-year-olds and up, six furlongs: Cal Curm, second, Madam Hurry; second, Madam Hurry; third, Stanley H. Time: 1:14 2-5.

Second race: Mary Pickford claiming purse, \$350, for three-year-olds and up, five furlongs: Cal Curm, second, Madam Hurry; second, Madam Hurry; third, Stanley H. Time: 1:01 2-5.

Third race: Love-in-Idleness claiming purse, \$350, for three-year-olds and up, five furlongs: Doctor Dooley, third, Timorose. Time: 1:11 2-5.

Fourth race: Honeywood claiming purse, \$350, for three-year-olds and up, five furlongs: Little Jake, second, Josonia; third, Timorose. Time: 1:10 2-5.

Fifth race: Lily Langtry claiming purse, \$350, for three-year-olds and up, five and one-half furlongs: Little Jake, second, Josonia; third, Timorose. Time: 1:10 2-5.

Sixth race: Mother-in-law claiming purse, \$400, for three-year-olds and up, six furlongs: Madam Hurry, second, Madam Hurry; third, Stanley H. Time: 1:11 2-5.

Seventh race: Sisters and Wives claiming purse, \$500, for three-year-olds and up: Valley Park Maids. Time: 1:16 2-5.

SUGAR PRICE TO RISE

International Banker Expects Right About Face Soon in Market

New York, July 22.—An international banker who keeps a close watch on the production of foodstuffs in all parts of the world today declared that the sugar situation is very likely to turn a right-about-face within a short time, when preliminary reports of a shortage in the beet crop abroad are confirmed. He expressed the opinion that should the current reports from abroad be correct, this point might be a short beet crop come to the market abroad, the sugar price will be taken out of the sugar market here.

The banker had a cabled report from London and one from Paris, received during the day. The London report said that demand is improving from all quarters, including India, and that Java sugars particularly are favored. Prices show a sharp advance of from 16 to 15 shillings or approximately 10 per cent. The Paris cable brought news that there has been no rainfall of importance in France for ten weeks, and approximately one-third of the beet sugar crop is badly damaged. Stocks have been greatly reduced, and the consumptive demand is increasing daily.

NEGRO BOXER DIES FROM BLOW IN BOUT

Galveston, Tex., July 22.—Henry Estes, known as the "Prisco Kid," was knocked out in the sixth round from injuries received in a boxing bout here on Wednesday night with "Irish" (Shiloh) Owens, of Oklawaha, Fla., and never regained consciousness. A charge of negligent homicide has been filed against Owens.

Cabinet, which De Valera did not feel justified in immediately turning down.

"This indicates," says the newspaper, "a great advance which we trust will not be countered by the gathering forces of reaction during these unfortunate, if necessary, periods of delay."

Resumption.

Belief that the conversations between De Valera and Mr. Lloyd George will be resumed is expressed by the Freeman's Journal. The interview between the two men in London yesterday was evidently not the last, the newspaper says.

"One thing, at any rate that seems certain," it continues, "is that there can be no return to the monstrous, unholy conditions to which Ireland had been subjected before the truce by the British Government."

CONSERVATIVE

An Italian newspaper wisely decides that "Europe is again in a new crisis which when settled will lead either to peace or disaster." That "em safe"—Cleveland Plain Dealer.

FINANCIAL NEWS

QUOTATIONS SHOW FEW CHANGES

Dairy and Fish Prices Only Noticeable Ones

The retail market shows very few noticeable changes, except on dairy products, which are still advancing. Salt Spring, Cowichan and Government Creamery have advanced five cents and being bought by the consumer at 55c. and 55c. a pound.

Fish produce registered a few changes to-day, while the salmon having reduced a few cents and is now selling at 2 pounds for 25c., while small red salmon on the market again at 15c.

With the exception of these few changes the retail market is very quiet, as may be seen in a review of the quotations, which are as follows:

INVESTIGATION ASKED.

Toronto, July 22.—At the request of delegates from the Typographical Union, the District Trades and Labor Council last night decided to ask the Trades and Labor Congress officials to appear before the Minister of Justice to demand an investigation of the alleged boycott threatened by the Toronto Typothetae against employers who set their workshoup on a forty-four-hour basis.

A Familiar Face.

Nanaimo—A familiar face can now be seen in charge of the E. & N. Depot here, during the absence of Mr. Pirih, in the person of J. H. Butler, for years agent on the British Columbia Division of the C. P. & at different points and known to the travelling public for the courtesy which is always extended to those who has any business to do with him. The many friends of Mr. Butler who visit Nanaimo during the next two weeks will be glad to renew old acquaintances, especially Mystic Shrimers.

New York funds, 12 1/2 per cent.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, July 22.—During the early trading on to-day's market there was only a very moderate demand for cash wheat with fairly liberal offerings. At the close cash wheat was 1/2 to 1/4 cent better than the futures market. The futures market was quiet for the first time, opening at 14 1/2 and closing at 14 1/2. There was considerable demand for oats and some trade was worked at advanced prices. July and August contracts were higher and December opening at 4 1/4 and closing at 4 1/4.

Barley closed 1/2 cent lower for July and unchanged for October. Flax opened 1/4 cent up for July and 3/4 cent up for October. Hops dropped 1/4 cent for July and advanced 1/2 cent for October.

Wheat	Open	High	Low	Close
July	14 1/2	14 1/2	14 1/2	14 1/2
Oct.	15 1/2	15 1/2	15 1/2	15 1/2
Dec.	14 1/2	14 1/2	14 1/2	14 1/2
Barley	4 1/4	4 1/4	4 1/4	4 1/4
Flax	14 1/2	14 1/2	14 1/2	14 1/2
Hops	14 1/2	14 1/2	14 1/2	14 1/2

EARLY ADVANCE FOLLOWED BY DECLINE

(By Burdick Brothers Ltd.)

Chicago, July 22.—The grain market opened steady and advanced by reports of heavy export business to foreign countries, an advance of practically three cents was registered. However, the advance could not be maintained, with a consequent sharp decline in closing figures showing a net loss of four cents in wheat from the high of the day.

STATUS OF CITY'S POLICEMAN IS BEFORE BOARD

Commissioners Discuss Relation of Miss Wark to Police Force

The status of Policewoman Miss Wark was brought into question at last night's meeting of the City Police Commissioners when Dr. Ernest Hall informed the meeting that Miss Wark had "found it necessary in order to facilitate her work, to change her residence so that her rooms could be used as an office to meet girls and women," and as she had found it necessary to pay additional rent and to buy additional furniture it was up to the board to pay for this, the Commissioner thought.

Strong opposition to this method of procedure was voiced by Mayor Porter, who presided, and by Chief of Police Fry and there were some heated passages which resulted in amusement for those present.

"I cannot see how we can buy furniture for anyone's private home. We might raise her salary to offset it," said Commissioner North.

Miss Wark claimed that it was for her office, not for her home, stating that it was unfair that for the two and a half years she had been on the force she had used her home for an office and had paid for her own telephone.

Mayor Porter said that it was unwise to have a detached office in conjunction with the Police Department. "We have a responsible head in the Police Chief, and it is a duty directly under him."

Chief Fry's Opinion.
Dr. Hall—"She should have an office to carry on her work: satisfactorily."

Chief Fry—"What is her work?"
Dr. Hall—"You should know."
Chief Fry—"If it is police work, the police station is the place for it. If it is not police work it has nothing to do with the police."
Dr. Hall—"That may be true, but you are dealing with women and children. It is as much your duty to prevent crime as it is to trace it."
Chief Fry—"Police women in Vancouver are in the police station."
Dr. Hall—"Because things are not done right in other places is no reason why they should not be done right here."
Chief Fry—"If we provide private homes for one we will have to do it for fifty others."
Dr. Hall—"Nothing of the kind."
Chief Fry—"What is Miss Wark's work?"
Dr. Hall—"If it is the same as other constables there is no need of her at all."
Chief Fry—"Show me the difference between her work and mine."
Dr. Hall—"Is not her work as much to prevent crime?"
Chief Fry—"We are all here to prevent crime." The chief declared emphatically there was no need of a private office and Commissioner North averred that there was no need to do as Vancouver did.

Calls on Ladies.
Dr. Hall then remarked—"There are a number of ladies here to discuss this problem. What would these ladies recommend?" he asked addressing some half dozen ladies present.
Chief Fry—"It does not matter what the ladies recommend. It is what the law demands we shall do."
Miss Crease of the Social Service said that organization had found Miss Wark's work invaluable. "When there is a difficulty of girls or women being in most serious danger, it is Miss Wark we get in touch with," said Miss Crease, who then proceeded to tell the Board what she considered constituted the work of the Police Department.
Another lady spoke in behalf of the Vancouver Island Child's Welfare work, claiming that it was necessary for Miss Wark to have facilities for private investigations.
Dr. Hall then asked Miss Wark

what additional expense she had been put to and she replied that she was paying \$12 a month more rent in her new quarters.

Dr. Hall—"If it is necessary to make a departure, we will make it. Would \$15 additional be sufficient?"
Miss Wark—"Yes."
Dr. Hall—"Then I move it be paid."
Commissioner North—"What does that include Doc. Does it include the furniture?"
Miss Wark—"I need furniture."
Dr. Hall—"In addition to that?"
Miss Wark—"Oh, yes I do not see why I should furnish my office."
Dr. Hall—"How much?"
Miss Wark—"I think \$75."
Another Case.
Mayor Porter then asked the Commissioners if they had considered that Mrs. Clavay, who acts as Probation officer, attends the Juvenile Court and other police work, would come under the same head. "If we make a departure for the ladies, let us be fair to all," he said.
"If Miss Wark would do what she is told to do and will report through the same medium as the others, there will be no need for furniture," said Chief Fry.
Miss Wark said that no one could claim that she was insubordinate. "When it is a criminal case I report on it. When it is private I withhold it," she said.
Commissioners Hall and North approved of this stand.
Chief Fry explained that the entire force had their private notebooks. "What I carry out I expect my subordinates to carry out," he said.
Mayor Porter—"I have thought for a long time that the social service and police work conflict, while they should be two separate matters."
At this point Miss Crease said that she approved of the attitude of the police in not divulging information given them in confidence.
Commissioner North—"I think if it is necessary for Miss Wark to get away from the police work the girls are worth it."
Dr. Hall's motion, seconded by Commissioner North that Miss Wark be given \$15 additional monthly and \$75 worth of furniture was carried, Mayor Porter recording his opposition.

"Is that a recommendation to the City Council?" asked Mayor Porter.
Commissioner North (heatedly)—"I cannot see why it should be a recommendation to the Council. I do not like to hear that point all the time, I cannot see where the Council has anything to do with it. The people did not vote for the Council to run the Police Commissioners."
Thereby the motion for the increase and the furniture was apparently nullified and Mayor Porter was notified to make for by the action of the majority Commissioners in not sending the recommendation to the City Council the latter will have no official notification that they have been asked to make the payments, the Police Commissioners having no account from which to pay them.

Issues Warning.
Dr. Hall here remarked—"I understand some obstruction has been thrown in the way of Miss Wark's work. If that is true there will be very serious consequences."
Chief Fry—"I would like a written statement as to what Miss Wark's work is to be. Is it police work or social service?"
Commissioner North—"What work would you like to do, Miss Wark?" (Laughter.)
Miss Wark—"As a Board, I would like you to define it. I would like to be trusted to make for by the action of the majority Commissioners in not sending the recommendation to the City Council the latter will have no official notification that they have been asked to make the payments, the Police Commissioners having no account from which to pay them."

GOES TO JUDGE PRAIRIE LIVESTOCK

Professor W. T. McDonald, Livestock Commissioner of British Columbia, left last night for the prairie where he will judge Percheron and Belgian horses at the Brandon show and Ayrshire cattle at the Regina show.

He will represent British Columbia at the Western Livestock Convention, when the question of cheaper freight rates on livestock to stimulate the industry in its present period of depression will be taken up.

MOTORCYCLE CLUB IS FORMED HERE

At a meeting held at the residence of Richard Shanks, local distributor for the Harley-Davidson motorcycles, Wednesday evening, at which a large number of motorcycle enthusiasts attended, the "Victoria Motorcycle Club" was formed to further promote the sport in this city. Officers were elected for the ensuing year. Cecil Clark being elected president unananimously; Richard Shanks, vice-president, and Edgar Miles, secretary-treasurer. Committees were at the same time chosen to take care of the various phases of the club's future activities, the sports committee being especially entrusted with the carrying out of a club competition in the nature of a hill climb to take place at Mount Douglas on July 31 at 3 o'clock, further mention of which will be made.

The next general meeting of the club will be held at Mr. Shanks's residence, Holmes Street, Saanich, on July 23, at 8 o'clock, for the enrollment of new members and to conduct general business.

WELCOME INSPECTION OF SHANTYMAN'S LAUNCH

The launch which is used in connection with the work of the Shantyman's Christian Association will be in Victoria during the week, July 24 to 31.

She will be at the Causeway Boat-house and may be seen any time by applying to S. P. Miller, 219 Campbell Building, or S. West, 725 Fort Street.

LININGS

Not knowing what further to do to the outside of their cloaks to effect novelty, Paris is putting linings with startling designs on the inside. Some have two huge eyes, which stare when the wrap is open.
